WORK EXPERIENCE

Frontend Developer (Internship)
Jagatmitra Foundation Pvt.Ltd
04/2023 - Present

PERSONAL PROJECTS

E-commerce (10/2022) ↗
- Project for using Html, CSS, Bootstrap Framework and JavaScript this project allowed me to hone my skills in HTML, CSS, and JavaScript, as well as my ability to replicate and customize an existing website design.

GTA5 Clone (10/2022) ↗
- I used Figma to create the design, and then built the website using HTML, CSS, and Bootstrap JavaScript.

Amazon Prime Clone (11/2022) ↗
- I used Figma to create the design, and then built the website using HTML, CSS, and Bootstrap JavaScript. create start your trail also work. To optimize the website's performance

Resident Evil (11/2022) ↗
- For this project, I decided to clone the website of a popular gaming website I used HTML, CSS, and JavaScript to replicate the website's layout and functionality, while also adding my own personal touch to the design.

Apple clone (12/2022) ↗
- I started by creating a wireframe and then translated that into a design using Figma. I then used HTML to create the website's structure and CSS to style the layout and typography. For the navigation menu, I used JavaScript to create a dropdown menu that appeared when the user hovered over the menu icon.
