Objective:

Recent MCA graduate with a strong foundation in software engineering and a passion for Artificial Intelligence. Seeking a dynamic role as a Software Engineer, Front-end Developer, or Software Developer, where I can contribute my skills and drive innovation.

Education:

- Master of Computer Applications (M.C.A.) from Presidency College (2021-2023)
- Bachelor of Computer Applications (BCA) from SDM College of Business Management (2018-2021)

Experience:

Web Developer Intern at Dax Ads, Kannur (May 2021 - Sep 2021)

Key Achievements:

- Collaborated on a high-performing development team, working on web applications, and honing my coding skills.
- Gained hands-on experience with a diverse tech stack, including PHP, Laravel, HTML, CSS3, and MySQL.
- Successfully contributed to the completion of impactful projects within tight deadlines.
- Demonstrated problem-solving skills and adaptability in a fast-paced work environment.

Projects:

1. QuizWave: Interactive Voice Assistant (May 2023 - Sep 2023)

- Led the end-to-end development of QuizWave, a cutting-edge web-based quiz application that integrates an interactive voice assistant for voice-commanded quizzes.
- Utilized Python, Flask, HTML, CSS, and JavaScript to create a seamless user experience.
- Continuously stayed updated on Python-Flask framework advancements and Speech Recognition Modules.
- Repository: [GitHub - wbk356/quizwavedemo](https://github.com/wbk356/quizwavedemo) (GitHub Link)

2. WeatherApp: Using OpenWeatherMap API (Jun 2023 - Jun 2023)

- Single-handedly built WeatherApp, a responsive web application that provides real-time weather data using React JS and the OpenWeatherMap API.
- Implemented efficient data retrieval using Axios for an exceptional user experience.
- Deployed the application and ensured optimal performance on different devices.
- Live Website: [Weather \(simweatherapp.netlify.app\)](https://simweatherapp.netlify.app) (Live Link)

Skills:

- Programming Languages: Java | C++ | C | Python | HTML5 | CSS3 | PHP | SQL | JavaScript | C#
- Tech Stack: React.js | Node.js | MongoDB | Express.js | Git | Laravel | Flask | MySQL
- Problem-Solving: Proficient in debugging and troubleshooting to ensure optimal performance.
- Collaboration: Effective team player with strong communication and analytical skills.

Certification:

- NodeJS issued by IBM (Oct 2023)
- Acquired expertise in Node.js, MongoDB, and Express.js, key skills for modern software development roles.
